PROFILE

I am a dedicated Application Support and DevOps Engineer with 4-year total experience of supporting business systems and solving application issues and configuring applications to meet business process and requirements.

I am seeking to join a company that can allow me to improve my technical skills focusing on web development and related technologies.

WORK EXPERIENCE

Accenture   2018 - 2022

DevOps Engineer

- Tested and deployed developed codes from code developers on lower environments bi-monthly
- Deployed tested codes on lower environments to production environment bi-monthly
- Tools Used: Jira, Octopus Deploy, MySQL

Application Support

- Responded and assisted on resolving critical and significant incidents via call with the application developers and onshore counterparts
- Managed low to moderate ticket incidents to meet SLAs
- Tools used: ServiceNow

KodeGO Bootcamp   2023

Full-Stack Web Developer

- Created an online pharmacy website affiliated to a government facility focusing on the mental health
- Provide front-end codes during web development
- Tools used: React, Bootstrap, CSS, JavaScript, MySQL
